SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. The Prefa National Enterprise, which produces prefabricated ferroconcrete building materials, is located on the southern edge of Hyskov (N 49-59, E 14-03) in a bend of the Berounka River, covering an area about one kilometer long and 300 meters wide at the widest point. The northern boundary is formed by the Beroun-Rakovnik road; the southern boundary is the Berounka River.

2. The original owners of this factory reportedly were Jelinek and Sons, the former owners of Prumstav. The enterprise was nationalized in 1945. From 1950 to 1953 a concrete mixer, a new concrete road through the works, and drainage were installed at Prefa by Prumstav, with about 40 workers employed on the construction.
